MEMORANDUM FOR: Director of Central Intelligence
Deputy Director of Central IntelligenceTHROUGH: Deputy Director for National Foreign
Assessment

STAFF FROM:

Chairman, Scientific and Technical
Intelligence CommitteeSUBJECT: Request to Engage Dr. Edward A. Frieman
as Member of STAPREFERENCE: My memo of 20 April 1979 requesting
approval to approach Dr. Frieman

1. Action Requested: Your approval to engage Dr. Frieman as a member of your Science and Technology Advisory Panel (STAP) on a without-compensation basis.

2. Background: Dr. Frieman, graduate of Columbia with advanced degrees from Brooklyn Polytechnic Institute, is an internationally known physicist. He has been Deputy Director of the Plasma Physics Laboratory at Princeton since 1964 and has recently been named Director of the Office of Energy Research, DOE. He was a charter member of JASON and recently headed that group. We feel he will bring to STAP fresh insights in substantive areas of priority interest over the next few years. He will serve approximately 10-15 days per year as a STAP member.

3. Staff Position: The need for Dr. Frieman's services cannot be met by using on-board personnel. Dr. Frieman's engagement is contingent upon his approval by the Office of Security for the necessary security clearances. A formal letter of invitation for your signature will be prepared when Office of Security approval is received.
